input voltage: 230 V, 50 Hz (line-to-Neutral)

input voltage: 230 V, 50 Hz (line-to-line)

Correct wiring of the electrical service box, RCD, and pack terminal block is essential. Power must be off during this step.

WARNING! All connections must be made by a qualified electrician in accordance with the national electrical code and any state, provincial or local electrical code in effect at the time of the installation. This product must always be connected to circuit protected by a residual-current device (RCD).

3- Select spa configuration (if prompt on startup)

At first startup the keypad display will show Lx or LLx, where « x » representing the config. number. Some spa packs come with a pre-selected config. and you may skip this step if your system automatically starts up¹.

Use the Up/Down key to choose the new low level configuration number.

Press the Program key to confirm the selection.

For more information, see our website: www.geckoalliance.com

¹ Note: To re-enter the low level selection menu, hold the Pump 1 key for 30 seconds.

Note: For the Color keypad series, select Settings menu, go into Electrical config and choose the appropriate Low level.

² Note: If the keypad does not have a Program or Filter key, use the Light key instead.

4- Select breaker current

Specify the current rating and the number of phases of the RCD used to ensure safe and efficient current management (and no RCD trippings).

Press and hold the Program key for 20 seconds until you access the breaker setting menu.

Note: For the Color keypad series, select Settings menu, go into Electrical config and choose Input current.

Current setting for each phase setting

# of phases	Current setting range
1	10 to 48 A
2	10 to 20 A
3	10 to 16 A

Choose the number of phases supplying your spa (1-3). Use the Up/Down key to select the desired value. Then press the Program key to confirm the selection.

The values displayed by the system correspond to the maximum amperage capacity of the RCD.

Use the Up/Down key to select the desired value. Then press the Program key to confirm the selection.

Note: If the keypad does not have the Program or Filter key, use the Light key instead.
